As part of the continued work on the Joliet Gateway Center transportation campus, the New Street railroad viaduct west of York Avenue will be closed for utility work beginning Thursday, April 24\textsuperscript{th}. Commuters will still be able to access and utilize the New Street parking lot from Chicago Street. Pedestrians will need to use the Scott Street underpass and the Union Station tunnel for access. On Saturday, April 26, 2014, the intersection of York Avenue at Washington Street will be closed to all vehicle traffic for the day. Drivers are advised to exercise caution and seek alternate routes when travelling in the area. It is anticipated that this work will be completed by April 30\textsuperscript{th}.

The Joliet Gateway Center transportation campus is a $43.4 million project that includes the construction of new commuter parking facilities, construction of a new bus facility, construction of a new train station, and the relocation of train passenger platforms. The project is funded through a $32 million grant from the State of Illinois, $7.5 million in funding from the City of Joliet, $2.2 million from the Burlington Northern Santa Fe Railway, and $1.7 million from PACE. The Gateway Center project demonstrates the continued partnership of the State, City and County, the RTA, Metra, Pace, Amtrak, Burlington Northern and Santa Fe Railroad, and Union Pacific Railroad.
