FUTURE IMPROVEMENT TO CATON FARM ROAD OVER THE DUPAGE RIVER BRIDGE

The City of Joliet is in the preliminary engineering phase of the improvement to the Caton Farm Road over the DuPage River bridge. The project is tentatively scheduled for construction no later than the Summer/Fall of 2016. The proposed project consists of removing and replacing the existing bridge deck of Structure No. 099-3323 (0.5 miles west of Interstate 55) in two stages. Caton Farm Road will be reduced from four lanes of traffic to two lanes of traffic during construction. Removal/replacement of the north half of the bridge will occur in Stage I, followed by the removal/replacement of the south half of the bridge during Stage II.

Access to Lily Cache Road from Caton Farm Road will be closed to traffic for approximately three months during Stage I. A signed detour utilizing IL 59 and Rolf Road will be provided for local traffic until the Lily Cache Road intersection is opened after Stage I completion.

One lane of traffic shall be maintained in each direction during construction. Upon completion of the Caton Farm Road bridge improvements, traffic will be re-established to two lanes of traffic in each direction.

The Joliet Department of Public Works is accepting comments on the adverse impacts of the temporary Lily Cache Road closure on local businesses and residents through May 30, 2014. You can email your comments to Mark Sefcik at msefcik@jolietcity.org. For additional information contact the Joliet Public Works Department at (815) 724-4200.

James D. Hock
City Manager

The City of Joliet is the fourth largest city in the state of Illinois, located just 45 miles southwest of Chicago's Loop. Home to over 147,000 residents, in addition to thriving businesses and attractions, the City of Joliet is easily accessible by rail, auto and bus transit. A perfect place to live, work and play, Joliet is constantly striving to promote growth and diversity. For more information on Joliet visit www.cityofjoliet.info or call 815-724-4000.
