July 18, 2014

JOLIET FIRE DEPARTMENT CONDUCTING THIRD PHASE OF ITS ANNUAL HYDRANT TESTING

The Joliet Fire Department will be entering the third phase of its annual hydrant testing beginning Wednesday, July 23, 2014. The testing program will be conducted Monday through Friday between 8:00 AM and 4:00 PM. The hydrant testing will continue for approximately 6 weeks, depending on the weather.

During this phase, testing will take place in the following areas of the City:

- The geographical area bounded by Reed Street to the east, I-80 to the south, Infantry Drive to the west, and Theodore Street to the north.

The Fire Department will take precautions to reduce the impact of possible rusty water. The City of Joliet will provide a chemical that removes rust from clothes in a washing machine, however, be cautioned that affected clothes must not be dried until they have been properly run through a rinse cycle that includes this chemical.

The chemical will be available at any Joliet Fire Station, free of charge. For those without transportation call the City of Joliet Water Department at (815) 724-4220 or the Joliet Fire Department at (815) 724-3500.

James D. Hock
City Manager

The City of Joliet is the fourth largest city in the state of Illinois, located just 45 miles southwest of Chicago’s Loop. Home to over 147,000 residents, in addition to thriving businesses and attractions, the City of Joliet is easily accessible by rail, auto and bus transit. A perfect place to live, work and play, Joliet is constantly striving to promote growth and diversity. For more information on Joliet visit www.cityofjoliet.org or call 815-724-4000.
