ComEd Scheduled Tree Trimming Maintenance in Joliet During February, 2015

ComEd will be performing vegetation management activities on distribution circuits in Joliet during the month of February, 2015. ComEd’s vegetation management activities are a key component of ComEd’s maintenance program to ensure system electrical reliability, as vegetation contact with ComEd equipment is a leading cause of outages.

ComEd has notified any affected customers and property owners with a statement of the vegetation management activities planned. The areas affected will include Gougar Road east to Rowell Avenue west and Hillcrest Road north to Spencer Road south.

Qualified line clearance workers contracted by ComEd will be performing the tree pruning work. Supervisors and General Foremen will be in close contact with the crews, ensuring the work is performed properly.

For more information about vegetation maintenance along power lines and ComEd’s “Right Tree, Right Place” program, please visit http://www.comed.com/customer-service/service-request/trees-powerlines/pages/maintenance.aspx

James D. Hock
City Manager

The City of Joliet is the fourth largest city in the state of Illinois, located just 45 miles southwest of Chicago’s Loop. Home to over 147,000 residents, in addition to thriving businesses and attractions, the City of Joliet is easily accessible by rail, auto and bus transit. A perfect place to live, work and play, Joliet is constantly striving to promote growth and diversity. For more information on Joliet visit www.cityofjoliet.info or call 815-724-4000.
